NORTHERN PLUMBING SUPPLY

This catalog has been prepared for your convenience in ordering and pricing Plumbing, Heating Cooling and Piping supplies. All items catalogued are normally stocked and are available for immediate shipment. We are in a position to supply all items pertaining to the PHCP trade and welcome all inquiries for specifications and prices.

PRICES

All catalog prices are subject to change without notice. We shall endeavor to keep you informed of all price changes by mailing you current price lists.

GUARANTEE

We guarantee all goods sold as to the quality of material and workmanship. We cannot allow claims for labor or other consequential damage. Any claims for shortages should be made within 5 working days from receipt of merchandise.

CREDIT POLICY

Open account is available to all customers with good credit ratings. A 2% cash discount is allowed to approved accounts if payment is postmarked by the tenth of the month following purchase. No discount will be allowed for payments reaching us after the 15th of the month. No discount can be allowed on credit card payments due to the associated costs. Accounts will be considered past due after the end of the month following purchase. A service charge of 1-1/2 per cent per month (which is an annual percentage rate of 18 per cent per year, simple interest) will be applied on all past due accounts. If the account balance remains unpaid at the end of the second month following purchase, open account privileges will be suspended until the account is cleared.

RETURNS

Credit will be applied to your account for any stock items returned in original carton and good condition. However, we cannot accept for return any special order or non-stocked items without advance notice and written authorization from the manufacturer. Such merchandise could be subject to factory restocking charges and freight back to the factory. Other merchandise that was shipped as ordered may be subject to a 25% restocking and handling charge.

WHOLESALE ONLY

We sell only to recognized plumbing & heating accounts. The general public may only purchase merchandise through these accounts. Possession of this catalog is not to be construed as an offer to sell any of the materials listed herein.

Calculating Flow Rate:

$$\frac{\text{Net Btuh Load}}{10,000} \equiv \text{Flow Rate in GPM}$$

Calculating Pump Head:

1. Measure the longest run in feet.
2. Multiply by 1.5 for fittings.
3. Multiply that number by .04
4. Resulting number is Pump Head (in Feet).
